SWEDEN

The Blue Hill Youth Centre uses peer-education to make young people assume responsibility for themselves and others, by running and participating in several sport sessions and activities like Hip-Hop, break-dancing and rap, etc.

The volunteer will work in the cafeteria of the youth centre. The cafeteria is a meeting place for young people and will be surrounded by different activities and services for youngsters. The volunteer will get involved in the planning and the implementation of these activities.

Accommodation & Meals

The volunteer will either stay in independent accommodation or with a host family connected with the project. A volunteer will know the situation for their accommodation before leaving the UK. The cafeteria is a meeting place and leisure time area for the students in the school, and a good place to start to get to know the local young people

You will have your both meals in your accommodation or in the host family, and also in the project e.g. in a school, where one of the youth leaders also is working.

It will be necessary to prepare some meals yourself.

Number of people we will send: 2 people

For this project:

- ☺ Be motivated in work with children & youth
- ☺ Be happy to share your experiences of the UK with young people from different countries.
- ☺ Be interested in helping to integrate youth/kids into mainstream society.
- ☺ To have interest in arts, music, culture and sport.
- ☺ Be happy to work in the evening & some week-ends

About the place

Solna Municipality is a Swedish municipality in Stockholm County, in central Sweden, located north of Stockholm's city centre. It is a part of Metropolitan Stockholm.

Stockholm is the capital city of Sweden and is host to a variety of attractions, from museums to shopping parades and nightclubs to suit every musical taste.

Stockholm is considered to be one of the most beautiful cities in Europe, it is built on a series of 14 islands not too dissimilar to Venice. You are never too far away from water and with Stockholm's variable climate the city has four different moods provided by the four seasons.
