JUANAKAERA

(Karaïbes relations internationales)

Maison des associations

quartier Mondésir,

Le Marin, 97290 Martinique

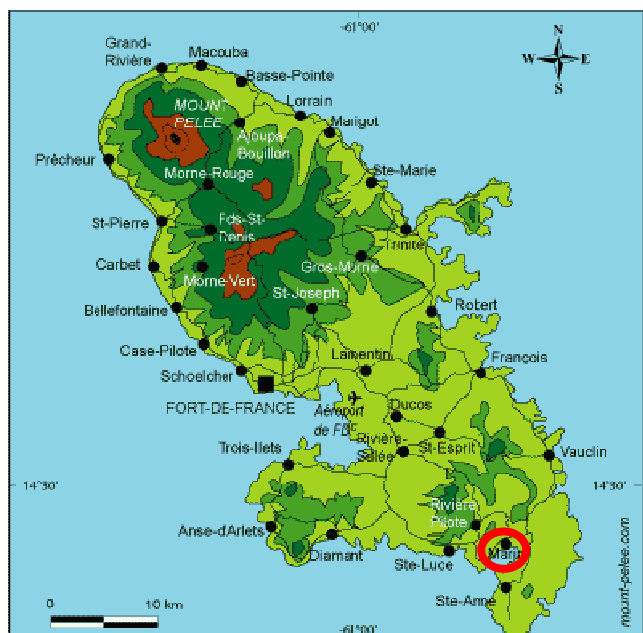

telex: (0596)596380058

Juanakaera is a support & training organisation working with young people in Martinique.

About the place & the organisation

Juanakaera is a non profit organisation situated in the south west of the island in the city called Le Marin. Located at the end of a bay protected by the Pointe Borgnesse and the Pointe Marin, Le Marin was from the very start of colonisation a place of predilection for the ships. With 200 m of altitude the Piton Crève-Coeur, old volcano of basalt and andesite dominates the South of the island. Its vegetation characteristic of the dry tropical forests is rich in scents: sisal plants, cactus-rackets, gommier, ti-baume, pear tree, Caribbean pine, mahogany small sheets.

FRANCE - OVERSEAS DEPARTMENT

Environment: The Caribbean (West Indies) is a group of islands in the Caribbean Sea, forming an arc of 3500 km, southward from Florida to the Northwest of Venezuela. Martinique is an island in the eastern Caribbean Sea, having a land area of 1,128 km². It is an overseas department of France. (This means the country is part of France, has the same language, laws & currency but is geographically separately from mainland France.)

Climate: temperature is about 27°C and rises to 28° - 29° in the summer. The land temperature is 27°C on average and can rise to 32°C. There are two seasons. A dry season called The December until May Lent. The more humid season is called "winter" from July to August. The tropical depression and hurricane season begins towards the end of August. The sun rises at 5am in the summer and at 6am in the winter. The sun sets at 5.30pm and 6.30pm

System of Government: France is a democratic republic with a liberal free-market economy, freedom of religion and press. France was a founding member of the EU.

Population: 61 M

Capital: Paris

Currency: Euro = 100cents

Languages: French/ Antillean Creole
